Monthly Newsletter August 2025

From The Director's Desk

It was a privilege to be a part of the Independence Day celebrations at CPWS Jodhpur and to interact with our parent community on this significant occasion. Such moments reaffirm that education is not confined to classrooms or examinations alone, but is strengthened through a meaningful partnership between schools and families.

At CPWS, our vision is to nurture confident learners, compassionate individuals, and responsible citizens. By working in partnership with parents, we ensure that every child's journey of learning is meaningful and complete.

Together, let us nurture every child to grow into a confident learner, a compassionate human being, and a responsible citizen of tomorrow.

Col. (Dr.) Mithilesh Dixit
Director, School Education, Career Point

From The Principal's Pen

Independence Day is always a moment of pride and reflection for all of us. This year became even more special as we welcomed the Director of School Education to our campus. His inspiring words deeply resonate with our school's philosophy. It gives me immense pleasure to connect with the parent community through this newsletter. Schools are more than institutions of learning; they are spaces where dreams take shape and values are nurtured. I firmly believe that the aspirations parents hold for their children must be the guiding vision for every school management. When schools and families work together with mutual trust, children feel supported and empowered to grow into confident learners and responsible citizens. Let us continue this journey hand in hand, ensuring that each child's potential is recognized and nurtured with care.
